## Philips MSX Graphic tablet NMS 1150/00

The graphic tablet is used in combination with your MSX computer and will be connected to the joystick port, indicated in the user manual of the related application software package.

The program below enables you to design graphics, which will be displayed on your TV- or monitor screen.
In this program the graphic tablet will be connected to joystick port 1.

| Sample | 10 | SCREEN 2 |
